

# KGHM ZANAM

## JAW CRUSHING PLANT (CRAWLER) ZKDSH 130/75

### Specifications

Drive of crushing module:	hydrostatic drive
Efficiency:	up to 110 m <sup>3</sup> /h (debris) up to 70 m <sup>3</sup> /h (granite)
Maximum feed size:	700 mm
Scope of gap regulation:	40 ÷ 155 mm
Weight:	45 Mg
Combustion engine power rating at 1500 RPM:	224 kW

### Main features:

- ◆ adjusted for maintenance-free operation,
- ◆ constant monitoring of working time and economical fuel consumption (*optional accessory*),
- ◆ maximum efficiency of crushing module automatically adjusts to actual load.
